

New Zealand RS&T Curriculum Vitae

PART 1

1a. Personal details				
Full name	<i>Title</i>	<i>First name</i>	<i>Second name(s)</i>	<i>Family name</i>
	Ms	Victoria	Jane	King
Present position		PhD candidate		
Organisation/Employer		The University of Auckland		
Contact Address		Department of Physiology Faculty of Medical and Health Sciences 85 Park Road, Grafton Auckland		
		Post code	1023	
Work telephone		Mobile	+64 274305999	
Email		v.king@auckland.ac.nz		
ORCID number		0000-0002-4327-5632		

1b. Academic qualifications		
2018	Masters, Physiology (First Class Honours)	University of Auckland
2016	Postgraduate Diploma in Science, Physiology (Merit)	University of Auckland
2012	Bachelor of Science, Pharmacology and Physiology	University of Auckland

1c. Professional positions held		
2022-present	Research Data Specialist, Paediatrics	University of Auckland
2019-present	PhD student, Dept of Physiology	University of Auckland
2017-present	Graduate Teaching Assistant	University of Auckland
2018-2019	Research Assistant, Dept of Physiology	University of Auckland
2018	Research Assistant, Paediatrics	University of Auckland
2015-2017	Research Assistant, Anaesthetics	University of Auckland

1d. Present research/professional speciality
<p>I have undertaken my PhD studies in the Fetal Physiology and Neuroscience Research Group (co-directors Bennet L and Gunn AJ) and with the Department of Obstetrics and Gynaecology (Stone PR). My research interests are the physiology of the fetus and in particular the circadian and ultradian rhythms in fetal behaviour. I am also interested in the early detection of the fetus at risk of stillbirth. To this end, my work also encompasses the maternal experience of pregnancy, including maternal sleep, an oft-neglected circadian activity which may affect the fetus.</p>

1e. Total years research experience	8 years
--	---------

1f. Professional distinctions and memberships (including honours, prizes, scholarships, boards or governance roles, etc)	
Prizes	
2021	Velocity Innovation Challenge (social category) winners, 20 th May 2021. This prize is awarded to promising proposals by the Centre for Innovation and Entrepreneurship.
2021	Diversity Scholar. RStudio::global, online, 21 st January 2021. This prize is awarded to outstanding members of underrepresented groups at the annual RStudio conference.
2020	JD Sinclair award. This prize is awarded annually to a high-performing PhD candidate in Physiology.
2020	Prize: PhD presentation award. Australasian Chronobiology Society, online,

- 3rd November 2020. This prize is awarded to the best student oral communication.
- 2020** Prize: Research Excellence award. Australasian Chronobiology Society, online, 3rd November 2020. This prize is awarded to outstanding abstract submissions.
- 2019** Prize: Tania Gunn PhD presentation award. Fetal and Neonatal Physiological Society, Marysville, Australia, 16-19th October 2019. This prize is awarded to the best student oral communication.
- 2019** Prize: Best Junior Researcher Presentation, Fetal and Neonatal Workshop, Queensland, Australia, 15-16th March 2019. This prize is awarded to the best early PhD student oral communication.
- 2018** Prize: Junior Researcher Presentation, Fetal and Neonatal Workshop, Queenstown, New Zealand, 22-23rd March 2018. This prize is awarded to the runner-up early PhD student oral communication.
- 2017** Prize: Presentation award, Australasian Chronobiology Society, Waiheke, New Zealand, 23-24th October 2017. This prize is awarded to the best Honours/Masters student oral communication.
- 2017** Prize: Research excellence award, Australasian Chronobiology Society, Waiheke, New Zealand, 23-24th October 2017. This prize is awarded for outstanding student research.
- 2017** Prize: Wallath Prize (Biomedical), Summer Research Scholarship Programme, University of Auckland. This prize is awarded to the student with the top ranked research report in their category.

Grants and Scholarships

- 2019-present** University of Auckland Doctoral Scholarship.
- 2016-2017** Scholarship award: Summer Research Scholarship Programme, University of Auckland.
- 2019** PGSA Travel Grant
- 2017** PGSA Travel Grant x2

Invited Talks and Public Outreach

- 2022** Invited talk: RLadies AKL, 13th April 2022: *From me to team*. I gave a talk about making the shift from coding on solo projects to coding as part of a larger team. This was presented online to the RLadies AKL branch of the RLadies Global network.
- 2020** Invited presentation: SatRdays, 22nd February 2020: *I dream of gg(plot2): visualising sleep in pregnancy with R*. I was invited to give a lightning talk about large dataset visualisation to provide group insights and direction for data analysis. I presented this at the inaugural SatRdays Auckland 2020, a conference of and for users of the R statistical programming language, held by a local chapter of the R Consortium. The audience was comprised of members of academia and industry. My registration and meal was included.
- 2019** Invited workshop: Research Bazaar, 10-12th July 2019: *Introduction to R*. I was invited to produce and lead a half-day practical interactive workshop teaching R statistical programming. I led this workshop at Research Bazaar AKL 2019, a local chapter of the worldwide Research Bazaar group promoting digital literacy in modern research. Research Bazaar aims to connect researchers across disciplines and upskill digital scholarship practices. I gave both an overview of the capabilities of R and introduced the audience to a workflow they could implement themselves in real-time, to instil

confidence that they could independently adapt it to their own research needs afterwards. The audience was mainly academic, with a wide range of aptitudes.

- 2018-** Courses and Careers Open Day, University of Auckland. I was part of the
- 2019** Department of Physiology team who engaged with secondary school students and their parents about science course opportunities and undergraduate students to advise about post-graduate courses and career opportunities in science.
- 2017** Chairperson, HealthX Postgraduate Student Conference. Faculty of Medical and Health Sciences, University of Auckland, New Zealand. 15th September 2017.
- 2015-** Meet-A-Scientist volunteer, LENScience, Liggins Institute, University of
- 2016** Auckland. The Meet-a-Scientist programme provided an opportunity for secondary school students from around the North Island of New Zealand to spend time in special research teaching laboratories in the Faculty of Medical and Health Sciences. Students spent time undertaking experiments and got meet with students and staff from a science/health background to learn about science and medical research as a career.

Society Memberships

- 2020-2022** Newborn Brain Society
- 2019** Fetal and Neonatal Physiological Society
- 2017-present** Physiological Society of New Zealand
- 2017, 2020** Australasian Chronobiology Society
- 2020-present** R-Ladies AKL

Theses and dissertations and research reports

- 2018** Masters thesis. The effects of inflammation on circadian rhythms in the preterm fetus. Submitted March 2018. Supervisor Bennet L, co-supervisor Gunn AJ. Department of Physiology, University of Auckland, New Zealand.
- 2017** Summer research scholarship. Effect of chronic inflammation on circadian rhythms in the preterm fetus. February 2017. Supervisor Bennet L. Department of Physiology, University of Auckland, New Zealand.

Teaching

- 2017-present** *Graduate Teaching Assistant/Demonstrator*
- Postgraduate MEDSCI 743, 738
- Undergraduate MEDSCI 205, 206, 311, 317
- MBChB 211
- MAORIRTH 22H
- PHARM 211

Practical assistance in wetlab and analysis work; grading of assignments and exams; creation of grading rubric.

1g. Total number of <i>peer reviewed</i> publications and patents	Journal articles	Books, book chapters, books edited	Conference proceedings	Patents
	6		13	

2a. Research publications and dissemination

Peer-reviewed journal articles

1. Dhillon SK, Gunn ER, Lear BA, **King VJ**, Lear CA, Wassink G, Davidson JO, Bennet L, Gunn AJ. Cerebral Oxygenation and Metabolism After Hypoxia-Ischemia. *Front Pediatr*. 10:925951. Doi: 10.3389/fped.2022.925951.
2. **King VJ**, Bennet L, Stone PR, Clark A, Gunn AJ, Dhillon SK. Fetal growth restriction and stillbirth: Biomarkers for identifying at risk fetuses. *Front. Physiol*. 13:959750. doi: 10.3389/fphys.2022.959750.
3. Magawa S, Lear CA, Beacom MJ, **King VJ**, Kasai M, Galinsky R, Ikeda T, Gunn AJ, Bennet L. Fetal heart rate variability is a biomarker of rapid but not progressive exacerbation of inflammation in preterm fetal sheep. *Sci Rep*. 2022 Feb 2;12(1):1771. doi: 10.1038/s41598-022-05799-3.
4. Lear CA, Davidson JO, Dhillon S, **King VJ**, Lear BA, Magawa S, Maeda Y, Ikeda T, Gunn AJ, Bennet L. The effects of antenatal dexamethasone and hyperglycemia on cardiovascular adaptation to asphyxia in preterm fetal sheep. *Am J Physiol Regul Integr Comp Physiol*. 2020; 319(6):R653-R665. doi: 10.1152/ajpregu.00216.2020.
5. Galinsky R, van de Looij Y, Mitchell N, Dean JM, Dhillon SK, Yamaguchi K, Lear CA, Wassink G, Davidson JO, Nott F, Zahra VA, Kelly SB, **King VJ**, Sizonenko SV, Bennet L, Gunn AJ. Magnetic resonance imaging correlates of white matter gliosis and injury in preterm fetal sheep exposed to progressive systemic inflammation. *International Journal of Molecular Sciences*, 2020 21(23) doi: 10.3390/ijms21238891.
